Native Revegetating Plants

Available for public sale

Talk to us today about your native tree planting requirements

- Our plants have predominantly been propagated from seeds sourced from the Whirinaki Forest but we have the capability to eco-source from other regions.
- We are happy to provide suggestions as to the type of plants you need.
- We can provide costings based on plants per sq m. We can provide bulk order quotes.
- We can provide advice on planting and ongoing plant care.
- We can supply plants anywhere in Aotearoa.
